

## CALCIUM AND MAGNESIUM

# SUPERMAGNESIO

### CE FERTILIZER

**Magnesium sulfate with microelements**

### COMPOSITION

MAGNESIUM OXIDE (MgO) water soluble: 15%

SULFUR TRIOXIDE (SO<sub>3</sub>) water soluble: 30%

BORON (B) water soluble: 0,01%

COPPER (Cu) water soluble: 0,05%

IRON (Fe) water soluble: 0,5%

MANGANESE (Mn) water soluble: 0,5%

ZINC (Zn) water soluble: 0,3%

AUTHORIZED IN ORGANIC FARMING

### FEATURES

SUPERMAGNESIO is a fertilizer based on magnesium. This element is fundamental for the photosynthesis and it revitalizes the coloration of the plants.

The formula is completed with the supplement of micronutrients.

The product should be used to prevent and to treat all cultures susceptible to diseases caused by deficiency of micronutrients or for crops on soils with a pH ranging from neutral to alkaline.

### DOSES AND USE PATTERNS

#### FOLIAR TREATMENTS:

Fruit picking: 2-3 kg per hectare

Horticulture: 1-1,5 kg per hectare

Viticulture: 2-3 kg per hectare

Ornamental plants: 1-1,2 kg per hectare

FERTIGATION: 6-12 kg per 1000 m<sup>2</sup>

PACKING: 10-25 KG BAGS.
