#### **GRANULAR FERTILIZERS**

## **ZOLFO LENTICCHIE**

# CE FERTILIZER Elementar sulfur

#### **COMPOSITION**

**ELEMENTAR SULFUR (S): 98%** 

#### **AUTHORIZED IN ORGANIC FARMING**

### **FEATURES**

The use of ZOLFO LENTICCHIE is particularly suitable to improve the physical structure and to acidify the soil.

The high content of sulfur makes available phosphorus and microelements in the soil, which may not be available due to the basic pH.

#### **DOSES AND USE PATTERNS**

Ground treatments:

Fruit picking and viticulture: 4-6 quintals per hectare
