

# **TURGO SUN**

## **CE FERTILIZER**

**Fertilizer solution basen on zinc (Zn) chelated with EDTA**

## **COMPOSITION**

Zinc (Zn) walter soluble: 2%

Zinc (Zn) chelated with EDTA: 2%

**AUTHORIZED IN ORGANIC FARMING**

Raw materials: zinc chelate (EDTA)

## **FEATURES**

TURGO SUN is a foliar fertilizer particularly appropriate to limit the damage caused by excessive loss of water from the leaf blade during dry periods in summer or during transplantation.

It is ideal for reducing burns and to promote the normal relaxation of the carpus.

## **DOSES AND USE PATTERNS**

Treat every 8-15 days in relation to the type of crop and climate, with doses of 400-600 grams per quintal of water corresponding to:

5-7 kg per hectare for arboriculture

2-4 kg per hectare for horticulture and ornamental plants

**PACKING: 5 KG CANS, 10 KG CANS.**
