

ERGOPLANT CALCIUM FERT

ORGANIC LIQUID NITROGENOUS FERTILIZER Fluid fleshings containing CaO

COMPOSITION

NITROGEN (N): 3%
TOTAL AVAILABLE ORGANIC NITROGEN (N): 3%
ORGANIC CARBON (C): 10%
CALCIUM OXIDE (CaO) water soluble: 2%

Organic fertilizers: for at least 21 days after the application it is forbidden to feed livestock with pasture grasses, or distributed after harvest

FEATURES

ERGOPLANT CALCIUM FERT is studied to prevent and to reduce serious physiopathologies caused by calcium deficiency.

Thanks to the presence of vectors and synergistic substances for the absorption of the calcium cation, ERGOPLANT CALCIUM FERT is an excellent remedy:

- to increase the absorption of calcium in the fruits
- to salify the pectins giving firmness to the tissues
- to optimize the pressure of the cell vacuoles
- to reduce the wilting of the leaves of vegetables after cutting
- to lignify quickly herbaceous or woody tissues in plant nursery
- to bring a slight dwarfism in plants excessively vigorous
- to reduce the bitter pit and the lithiasis.
