

ORGANIC AND ORGANO-MINERAL

ASCOTER

ORGANIC NITROGENOUS FERTILIZER **Mixture of organic nitrogenous fertilizers**

COMPOSITION

TOTAL AVAILABLE ORGANIC NITROGEN (N) water soluble: 6%
ORGANIC CARBON (C) of biological origin: 19%

AUTHORIZED IN ORGANIC FARMING

Organic fertilizers: for at least 21 days after the application it is forbidden to feed livestock with pasture grasses, or distributed after harvest

FEATURES

ASCOTER is a mixture of animal and vegetable amino acids with the addition of Ascolphyllum Nodosum. It combines in one product the nutritional activity of the amino acids with the biostimulating one of the seaweeds.

The use of ASCOTER allows to obtain healthier plants, more resistant to stress caused by physiopathologies and unfavorable climatic conditions, it increases the percentage of the fruit-setting and the size and the weight of the fruits. Consequently the harvest will be better and plenty.

DOSES AND USE PATTERNS

ROOT TREATMENTS:

Horticulture: 3-4 kg per 1000 m²

Fruit picking: 100-200 kg per hectare

Floriculture: 2-3 kg per 1000 m²

In case of stress caused by unfavorable climatic conditions or parasite attacks the doses can be increased of 20-30%.

We recommend to treat regularly every 20 days; anyway, the principal interventions are in pre-flowering till the fruit-setting.

PACKING: 10-25 KG CANS.
